Exercise 10

RECORD YOUR DIGITAL SHADOW

Our contact 'coordinates' construct part of the 'digital shadow' which represents us to other people and institutions. These coordinates change throughout life, especially with developments in telecommunication.

This exercise records the digital shadows, past and present, of this class.

1   Form teams of 5

2   For <u>10 minutes</u>, fill in the table below. The 5 columns (A, B, C, D, E) are anonymous codes for each the team member:

	A	B	C	D	E
Q1 How many <u>home addresses</u> have you lived at (not holidays or short stays)?					
Q2 How many <u>fixed phone numbers</u> have you had?					
Q3 How many <u>mobile phone numbers</u> have you had?					
Q4 How many <u>mobile phones</u> have you had?					
Q5 How many <u>phone numbers</u> have you stored in your mobile?					
Q6 How many <u>email addresses</u> have you had?					
Q7 How many <u>emails</u> do you send on an average week (guess)?					
Q8 How many <u>websites/blogs</u> do you personally own?					
Q9 How many <u>other blogs</u> do you contribute to regularly?					

4   For <u>5 minutes</u>, on the table on page 2, fill in, for each question, the lowest and highest recorded in the team, and the average (to the <u>nearest whole number, not decimals</u>) of all team members

5   Write your full names *(nomi e cognomi)* on the table

6   Fix page 2 to the wall.

	Minimum	Maximum	Average
Q1 **Home addresses**			
Q2 **Fixed phone numbers**			
Q3 **Mobile phone numbers**			
Q4 **Mobile phones**			
Q5 **Phone numbers stored**			
Q6 **Email addresses**			
Q7 **Emails/week**			
Q8 **Own websites/blogs**			
Q9 **Other blogs**
